

Utah

State Health Department Website: health.utah.gov

Overall Rank:

Summary

Strengths:

- · Low premature death rate
- · Low prevalence of multiple chronic conditions
- Low prevalence of cigarette smoking

Challenges:

- · High racial disparity in premature death rates
- High prevalence of frequent mental distress
- · Low prevalence of having a dedicated health care provider

Highlights:

NON-MEDICAL DRUG USE

from 11.2% to 20.1% of adults between 2021 and 2022.

FREQUENT MENTAL DISTRESS

from 12.2% to 17.1% of adults between 2018 and 2021.

HPV VACCINATION

36%

from 45.0% to 61.4% of adolescents ages 13-17 between 2020 and 2021.

^{*} Value is a sum of weighted, ranking measure z-scores (the number of standard deviations a state value was above or below the U.S. value).

Higher summation scores are better. Scores are not calculated for the District of Columbia

Ingine a similation sources are better. Sources are high services are not re-bished or columbia.

**Non-arity measures compare the group with the highest or lowest rate and the white rate.

*Non-araking measure.

Data not available, missing or suppressed.
