3 OUT OF 4 CHILDREN
LIVE IN A SUPPORTIVE NEIGHBORHOOD**
ACCORDING TO HHS, SUPPORTIVE NEIGHBORHOOD ENVIRONMENTS CONTRIBUTE TO THE SOCIAL AND EMOTIONAL HEALTH OF A CHILD.

**Supportive neighborhoods: Percentage of children aged 0 to 17 whose parents report their child is "usually" or "always" safe in their community and neighborhood and they "strongly agree" or "somewhat agree" with at least three of the following: In my neighborhood people help each other out, we watch out for each other’s children, there are people I can count on in this neighborhood, there are trusted adults nearby to help my child if they got hurt or scared while playing outside.

8 OUT OF 10 CHILDREN RECEIVE THEIR RECOMMENDED ADOLESCENT WELL-VISIT WITH A HEALTH CARE PROVIDER.

MORE THAN 90% OF CHILDREN ARE RECEIVING VACCINATIONS FOR POLIO (93%), MEASLES, MUMPS AND RUBELLA (92%), HEPATITIS B (92%) AND CHICKEN POX (91%).

NEARLY 1 IN 4 CHILDREN (16.4 MILLION) HAVE MULTIPLE ADVERSE CHILDHOOD EXPERIENCES* BEFORE REACHING THEIR 18TH BIRTHDAY.

*Adverse Childhood Experiences (ACEs): Children aged 0 to 17 who experienced 2 or more of the following: Socioeconomic hardship, divorce/parental separation, lived with someone who had an alcohol or drug problem, victim or witness of neighborhood violence, lived with someone who was mentally ill or suicidal, domestic violence witness, parent served time in jail, treated or judged unfairly due to race/ethnicity, death of parent.

9 OUT OF 10 BABIES RECEIVE THEIR RECOMMENDED WELL-BABY CHECKUP WITH A HEALTH CARE PROVIDER.

9 OUT OF 10 BABIES ARE RECEIVING THEIR RECOMMENDED VACCINATIONS FOR POLIO (93%), MEASLES, MUMPS AND RUBELLA (92%), HEPATITIS B (92%) AND CHICKEN POX (91%).
**Supportive neighborhoods:** Percentage of children aged 0 to 17 whose parents report their child is "usually" or "always" safe in their community and neighborhood and they have people I can count on in this neighborhood, there are trusted adults nearby to help my child if they got hurt or scared while playing outside. "Strongly agree" or "somewhat agree" with at least three of the following:

- In my neighborhood people help each other out, we watch out for each other's children, there are
- \( \text{strongly agree} \) or \( \text{somewhat agree} \) with at least three of the following: In my neighborhood people help each other out, we watch out for each other's children, there are

**Adverse Childhood Experiences (ACEs):** Children aged 0 to 17 who experienced 2 or more of the following:

- Socioeconomic hardship
- Divorce/parental separation
- Lived with someone who had an alcohol or drug problem
- Victim or witness of neighborhood violence
- Lived with someone who was mentally ill or suicidal
- Domestic violence witness
- Parent served time in jail, treated or judged unfairly due to race/ethnicity
- Death of parent

**Adolescent Well-Visit with a Health Care Provider:**

9 out of 10 babies receive their recommended well-baby checkup with a health care provider.

8 out of 10 children receive their recommended adolescent well-visit with a health care provider.

More than 90% of children are receiving vaccinations for polio (93%), measles, mumps and rubella (92%), hepatitis B (92%) and chicken pox (91%).
ADVERSE CHILDHOOD EXPERIENCES

NEARLY 1 IN 4 CHILDREN (16.4 MILLION) HAVE MULTIPLE ADVERSE CHILDHOOD EXPERIENCES* BEFORE REACHING THEIR 18TH BIRTHDAY.

ACCORDING TO CDC, CHILDREN EXPERIENCING A HIGHER NUMBER OF ADVERSE CHILDHOOD EXPERIENCES IN THEIR HOME ENVIRONMENT ARE MORE LIKELY TO DEVELOP CHRONIC HEALTH CONDITIONS AND ENGAGE IN UNHEALTHY BEHAVIORS.

*Adverse childhood experiences (ACEs): children aged 0 to 17 who experienced 2 or more of the following: socioeconomic hardship, divorce/parental separation, lived with someone who had an alcohol or drug problem, victim or witness of neighborhood violence, lived with someone who was mentally ill or suicidal, domestic violence witness, parent served time in jail, treated or judged unfairly due to race/ethnicity, death of parent.

SUPPORTIVE NEIGHBORHOOD

3 OUT OF 4 CHILDREN LIVE IN A SUPPORTIVE NEIGHBORHOOD**

ACCORDING TO HHS, SUPPORTIVE NEIGHBORHOOD ENVIRONMENTS CONTRIBUTE TO THE SOCIAL AND EMOTIONAL HEALTH OF A CHILD.

**Supportive neighborhoods: Percentage of children aged 0 to 17 whose parents report their child is “usually” or “always” safe in their community and neighborhood and they “strongly agree” or “somewhat agree” with at least three of the following: in my neighborhood people help each other out, we watch out for each other’s children, there are people I can count on in this neighborhood, there are trusted adults nearby to help my child if they got hurt or scared while playing outside.
