

Wyoming

State Health Department Website: health.wyo.gov

Overall Rank:

Summary

Strengths:

- Low prevalence of multiple chronic conditions
- · High reading proficiency among fourth grade public school students
- Low levels of air pollution

Challenges:

- · High occupational fatality rate
- · Low adult flu vaccination rate
- · High uninsured rate

Highlights:

HPV VACCINATION

from 26.7% to 48.0% of adolescents ages 13-17 between 2016 and 2021.

FOOD INSECURITY

from 13.2% to 11.2% of households between 2015-2017 and 2019-2021.

PREMATURE DEATH

from 8,000 to 9,141 years lost before age 75 per 100,000 population between 2019 and 2020.

Measures		Rating	State Rank	State Value	U.S. Value

^{*} Value is a sum of weighted, ranking measure z-scores (the number of standard deviations a state value was above or below the U.S. value).

Higher summation scores are better. Scores are not calculated for the District of Columbia

Ingine a similation sources are better. Sources are high services are not re-bished or columbia.

**Non-arity measures compare the group with the highest or lowest rate and the white rate.

*Non-araking measure.

Data not available, missing or suppressed.
