

South Carolina

Risk of Social Isolation by County

Index of social isolation risk factors (living in poverty; living alone; being divorced, separated or widowed; having never married; having a disability; and having independent living difficulty) among adults age 65 and older, relative to all U.S. counties. Normalized values are 1 to 100, with a higher value indicating greater risk.

1 to 32 33 to 38 39 to 43 44 to 51 52 to 100 No Data
